ABOUT ME

Motivated and disciplined student with a strong passion for programming, technology, and personal development. Currently studying at PMG "Ivan Vazov" in Dimitrovgrad with a focus on computer science and software development. I am 17 years old and constantly striving to improve both my technical and soft skills. I enjoy working on creative projects, building websites, and learning new technologies. Outside of school, I stay active through football, fitness, music, and gaming. I am eager to contribute my energy and growing expertise to a dynamic and challenging environment.
